

INFINOVA RoHS COMPLIANT PRODUCT LIST

The following products are RoHS compliant. Some products may have longer than standard lead times. It is imperative that Infinova be advised, in writing on the purchase order, that RoHS products are required. This written advisement requirement will continue until inventory of Non-RoHS stock is depleted.

V1700 PTZ Dome Cameras

The entire line of V1700A multi-protocol analog PTZ dome cameras, V1750A pressurized analog cameras and the V1700N-L IP cameras are compliant. The V1700M & V1700S cameras with built-in fiber optic interface are not RoHS compliant.

N3500/N3700 Fiber Optic Transceivers

This includes the N3500 and N3700 Digital Fiber Optic Transmitters/Receivers and Transceivers. Both the module (-m) and rack card (-r) versions are compliant. However, the V3910-18 & V3910-15 19" chassis' for multiple rack cards are not compliant. Therefore, a complete RoHS FO installation requires the exclusive use of FO modules and not a combination of compliant rack cards installed into the non-compliant 19" chassis. The V3910 chassis is scheduled to be compliant by the end of July 2008. A complete fiber optic RoHS product listing is on the next page.
